

U3A Costa Brava Guidelines for Sharing Costs

SHARING Is an important principle for our U3A and includes;

- **HOSPITALITY.** If a group member hosting an event at their home provides refreshments, a contribution of 1 euro should be collected from each member attending to cover costs.
- **TRANSPORT.** To reduce driving costs and encourage members to offer lifts to others in the group our U3A has a formula to share costs. Multiply the number of kilometers driven x 35 cents and divide between the number of people in the car (including the driver).

It is extremely important that all members share these costs regardless of their ability to cover the costs themselves. This is to avoid embarrassment and enable everyone to offer hospitality or transport and hence participate fully in the U3A.
